

Bill Template

Use this framework to put a policy proposal into legislative form. Replace the bracketed prompts with language appropriate to your jurisdiction and seek qualified legal or legislative review before filing.

AN ACT concerning ...

State the subject area: regulation, appropriations, mandates, public health, education, or another field.

Enacting clause

Use the legislative enacting language required by the governing body that will consider the proposal.

SECTION 1 — Short title

Name the Act clearly and consistently.

SECTION 5 — Findings; purpose

State the facts, evidence, and policy purpose. Include reputable statistics or organizational findings that explain why action is needed.

SECTION 10 — Definitions

Define key words and phrases so the policy can be implemented and enforced consistently.

SECTION 20 — Policy action

Describe exactly what the bill does: create or fund a program, set a requirement, prohibit conduct, create a committee, direct an agency, or establish enforcement.

SECTION 30 — Oversight

Identify the responsible agency, committee, or team. Specify roles, authority, reporting, reimbursement, voting, or other operational rules as needed.

SECTION 35 — Timeline

State when the policy takes effect and any implementation milestones.

SECTION 90 — Amendatory and uncoded provisions

Identify legislation or provisions affected by the Act, when applicable.
