

A Resolution To Designate June 13 to June 19th, 2027 as Senior AI Fraud Awareness Week

Resolution No._____

Whereas, advances in Artificial Intelligence have dramatically increased the risk and threat of scams and fraud attacks on seniors through voice cloning and deepfake attacks; and

Whereas, older adults have long been disproportionately targeted by scam and fraud attacks, a vulnerability that has only increased as a result of advances in fraud technology and frequency; and

Whereas, The Federal Bureau of Investigation's Internet Crime Complaint Center reported that AI related scams caused \$893 million in losses to Americans in 2025; and

Whereas, estimates show that Adults aged 80 and over report the highest median amount of loss related to scams, at \$1,650 per report; and

Whereas, Libraries, financial institutions, senior centers, caregivers, and community organizations can help older adults recognize and respond to emerging AI-enabled threats; and

Whereas, The Illinois Legislature recognized the importance of protecting older adults from fraud through declaring intent to eradicate senior financial fraud and the United States Congress introduced new protections against AI enabled impersonation fraud through the AI Fraud Accountability Act; now, therefore, be it

Resolved by the Illinois Senate/House that the members of this legislative body declare June 13 through June 19th of 2027 as Senior AI Fraud Awareness Week; and be it further

Resolved, that the Illinois Senate encourages libraries, financial institutions, and community organizations across Michigan to share and promote awareness against AI fraud
